

We are a Community Engagement Team from Mission Australia and we work on behalf of people with a disability to guide them through their NDIS journey. Our focus is predominantly on Aboriginal people in the Perth Metro area.

Gaining initial access to the NDIS can be a hard process so our team is here to support you. Some of the areas we can assist you with is gathering evidence to support your application and even just filling out the Access Request Form. Maybe you just want to have a yarn about your particular problem. All of us have experience in an LAC role so we have met with many individuals and families in preparing their NDIS plans. Even if you already have an NDIS plan you may be having a hard time accessing services. We can assist and support you to find service providers who will provide a culturally appropriate service for you or your family member.

Our friendly team of Trevor, Gayle, Mark and Ash are available for you to contact if you want any more information or support. Feel free to contact us direct on email or phone.

Team Leader (Trevor). Mobile: 0436 811 274 Email: Trevor.Martin@ndis.gov.au
